

# Meeting the Budget

Construction Budget:

\$19.2 million federal allocation

3.8 million local match

\$23.0 total funding budget

In order to keep costs within the available budget, the project will initially be constructed as a two-lane roadway.

The two-lane interim project will be designed to support the future construction of the full recommended preferred alternative.

**IMPORTANT:** A time-line for funding and construction of the additional lanes to create a four-lane facility has not been established.

# Interim Concept

The interim project includes:

- 40 mph design
- Two roundabouts
- Two 11' lanes
- Paved bike/pedestrian trail
- Curb and gutter
